## ABOUT ME

I am an Enthusiastic and self-motivated team player with a strong work ethic.I've Demonstrated ability to quickly learn and adapt to new languages as required by projects or environments. I have worked as a full-time as a Software Engineer during my internship for 6 months, I have worked in front-end technologies Angular (V-17,18-latest) and ReactJS. I actively contribute to real-world projects, enhancing my skills in creating dynamic and responsive user interfaces.Commitment to continuous improvement and staying updated with the latest language trends and technologies. Eager to apply my knowledge and contribute to a dynamic work environment.

## WORK EXPERIENCE

01/01/2024 – 30/08/2024 surat, India
**SOFTWARE DEVELOPER** YOSA TECHNOLOGY SOLUTIONS PVT. LTD.

- Developed dynamic and responsive user interfaces using Angular (latest version) to create seamless user experiences across various devices.
- Utilized Angular's advanced features such as lazy loading, dependency injection, and modules to optimize application performance and maintain scalability.
- Created reusable components, services, and directives to enhance code reusability and modularity.
- Integrated RESTful APIs for dynamic data interaction, ensuring real-time data updates and user engagement.
- Implemented form validation using Angular Reactive Forms, improving data integrity and user feedback.
- Worked with Angular Routing for efficient navigation and lazy-loaded routes to reduce initial load times.
- Implemented state management using RxJS to handle complex asynchronous data flows, ensuring smooth user interactions and predictable state changes.

01/05/2023 – 30/11/2023 Rajkot, India
**SOFTWARE DEVELOPER** CODE BUSTER

## EDUCATION AND TRAINING

15/08/2020 – 30/04/2024 Anand, India
**BACHELOR OF INFORMATION TECHNOLOGY** Madhuben and bhanubhai patel institute of technology(MBIT)

**Website** https://www.mbit.edu.in/ | **Final grade** 7.66

## LANGUAGE SKILLS

Mother tongue(s): **GUJARATI**

## PROJECTS

01/01/2024 – CURRENT
**HRM**

My internship project transformed how a company's employees connect with HR. I designed and built a sleek, cloud based portal using Angular (V-17,18-latest) and Spring Boot Java. Say goodbye to paper timesheets! Employees can now clock in and out with a tap, easily filter their hours by month or year, and submit leave requests in a flash. Real-time tracking keeps everyone informed, fostering a smoother flow between employees and HR. This project not only boosted efficiency but also put a smile on faces with its user-friendly design. It was a privilege to contribute to a solution that empowers daily work life and showcases my passion for user-centric technology.

01/06/2023 – 30/11/2023
**Avashyakam**

Avashyakam is a real-time application used by more than 600 students of APC (Vidyanagar). Through this application, students can order canteen and consumer store items, request various permissions, and submit their phones. The application is built using ReactJS for the front end, ensuring a dynamic and responsive user experience.A streamlined process for students to request permissions for various activities. Secure and organized method for students to submit their phones.
